

HIGH PERFORMANCE TYRE

# ATREZZO ECO

## PERFORMANCE RATINGS:

### WET PERFORMANCE

Three wide main grooves and small lateral grooves that run through the sidewall effectively enhance wet grip and improve hydroplaning resistance.

### FUEL ECONOMY

Adjusted the internal structure of the tyre to optimize the distribution of contact stress which improves comfort and lowers rolling resistance.

Added a lightning pattern in the tread for greater aesthetics.

### EXCEPTIONAL HANDLING

Two center ribs and reinforced grooves help improve tyre rigidity for excellent handling. Effectively reduces rolling resistance and improves fuel economy.

### IMPROVED GRIP

Solid large block shoulder design provides exceptional grip to ensure vehicle stability.
