

WINTER COMMERCIAL LIGHT TRUCK TYRE

ICE BLAZER WST1

PERFORMANCE RATINGS:

The ICE BLAZER **WST1** is a studdable winter tyre designed for drivers that demand maximum traction in severe winter weather conditions, letting you outperform the elements to get more out of the winter season.

WINTER SAFETY

Special winter weather tread compound allows the tread rubber to maintain flexibility for exceptional performance in extreme cold temperatures. Improved safety and handling in winter weather conditions (indicated with the Severe Service Emblem).

SPECIAL BUFFER LAYER

Special rubber buffer layer at the bottom of the stud absorbs the impact force of snow to prevent the falling out of studs.

WINTER GRIP

V-shaped tread design improves grip on ice and snow, skid resistance, and effectively reduces noise emissions. Sipes are optimized to ensure greater grip on ice and snow.

WINTER PERFORMANCE

Innovative square tread design increases the ground contact area of the tyre to effectively improve grip and skid resistance.
